City State Zip

Please complete, sign and return this Affidavit in the enclosed envelope. This Affidavit will be forwarded to the City, and you will receive a letter from them giving the ruling on your application. This Company is not authorized to grant any exemptions.

A copy of the Extract of Municipal Ordinance is enclosed for your information. Please refer to the Provision that gives the grounds for Exemption.

Please note, if the City grants an exemption, it will expire at the end of the calendar year in which it is granted. Renewal of an exemption requires that another Affidavit be completed and submitted. If the exemption is not renewed/granted, billing will resume at the first of the succeeding calendar year.

To clarify the requirements of the Municipal Ordinance governing rubbish accumulation of disposal:

The mandatory waste disposal service fee, which is required by all property owners, is a fee for making the trash service available on a year-round basis. If a property owner is unable to avail himself of this service, the service is nevertheless provided and the charge must be paid.

We are the authorized rubbish hauler and act as an agent of the city in making the service available and in sending billings as required by the ordinance and by our agreement with the city. We do not have the authority to grant exemptions; that is a function of the city. We do forward such request to the proper city office.

At this time the City does grant exemptions from billing using the certain guidelines: The property, under the same ownership must be totally uninhabited for a period of twelve consecutive months and becomes eligible for exemption at the beginning of the thirteenth month.

An affidavit must be completed by the owner of record giving the reasons for requesting exemption and giving pertinent dates. We will follow the city directives for handling these applications and forward the request to the proper city office. The city will reply in writing directly to the applicant, either granting or denying the application.

Exemptions will be voided if the premises are inhabited for even one night or if trash is generated and/or placed out for pickup.

Exemptions expire at the end of each calendar year and must be renewed by completing an affidavit which will be forwarded to the city. If no renewal application is received, billing will resume at the first of the year.
